

Dear Friends, Family, and Neighbors,

Saving and enhancing lives through organ and tissue donation and transplantation is something that inspires me every day.

<<Insert your personal story and photos>>

Because of this, I am excited to participate in the Little Red Heart 5K with my team, <<Insert Team Name>>, to raise funds to support donor families, as well as research and education to help give the gift of life to those in need of life-saving organ and tissue transplants.

This year's event on Saturday, November 7 will include a LIVE online program honoring teams, participants and sponsors. I hope you can join me and tune in to watch at 10:00 AM at LifeShareOKFoundation.org/LRH5K. Although we cannot come together in person for the Little Red Heart 5K, we will not miss the opportunity to honor organ and tissue donors and celebrate the gift of life!

Please also consider supporting me by making a financial contribution or joining my team at <<Insert link to personal 5K fundraising page>>. Your support will make a difference! We can all take an active role in helping others during this unprecedented time.

Today, there are 115,000 people nationwide waiting for a transplant and 20 die each day. One donor can save eight people and one tissue donor can restore health to over 75 people.

Your support is deeply appreciated! To learn more about LifeShare, visit LifeShareOK.org

Sincerely,

<<Insert your name>>

LifeShare Foundation supports the activities of LifeShare to help save more lives through organ and tissue donation.
